Brief description:	<p>Google Chrome can be used, among other things, to call up web pages and load PDFs and HTML5-based content.</p> <p>The fastest web browser has a bookmark manager and an optionally usable bookmark bar. Interesting and frequently visited websites can be saved with this. Bookmarks can be opened by clicking on them in the bookmark bar</p>
Access and usage Information (Costs, requirements cloud based, mobile usability, ...):	<p>Registration is required to use the bookmarks bar. (Google Account) Google Chrome as a desktop application is available for Windows, Linux and Mac. In addition to a version for Android devices, there is a slightly adapted app for iPhone and iPad.</p> <p>If synchronisation with Chrome is activated, bookmarks, passwords and other data can be accessed on all your devices. The bookmarks bar must be activated for this. (three-point menu)</p>
